

Bend Coupling for Air/Water

A simple solution to quickly connect (and separate) flexible hoses

Available in 2 Versions

Version ① Ø 4,8 mm

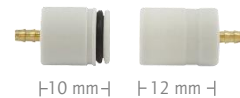

Original Sizes

Only
1.2 g!

Version ② Ø 9,0 mm

Version ② with distributor
with 2, 3, 4 or 5 exits

! All Advantages at a Glance:

- Suitable for connecting flexible hoses
- Service-friendly mounting / dismantling of individual modules and hoses
- Minimal size
- Easy handling (just fix and bend) – no tool required!
- Retrofittable into existing hose systems
- Customizable connection nipples

For further details please see reverse!

Bend Coupling

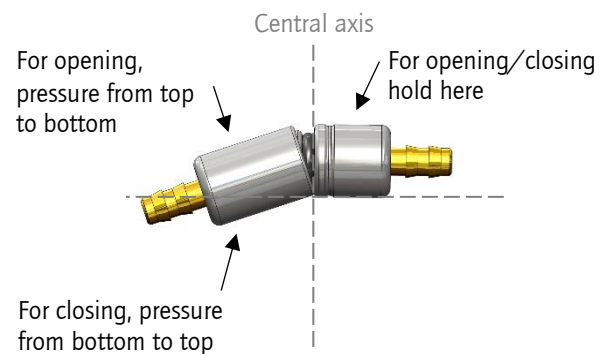

The Medtronic bend coupling is a simple solution to quickly connect and separate flexible hoses.

As the bend coupling (version ①) is made of robust plastic material, it can operate with pressures of up to 8 bar at room temperature.

Functioning of the Bend Coupling

For opening the bend coupling, bend it over the central axis and outer diameter.

For closing, fix it diagonally in slot and pull it up with slight pressure to click into place.

Accessories

- Safety sleeve for bend coupling version ①

Application example - Connecting individual modules

One contact only!

We have our own development department, manufacture our own tools and moulds and produce over 90 % of our products ourselves. Therefore, we are in a position to respond to any new product requirements quickly and can ensure highest quality standards. Medtronic is certified according to DIN EN ISO 13485.
